

Data Analysis and Storytelling Project

Your Name

June 09, 2026

Data Analysis and Storytelling Project

Instructions

[DELETE BEFORE SUBMITTING]

- Replace all instructional text with your own work.
- Text marked **[KEEP UNTIL MILESTONE 4]** should remain in the notebook until Milestone 4.
- Do not add code to sections marked for Milestone 4.

Introduction

[DELETE BEFORE SUBMITTING]

Write one or two paragraphs introducing your project. Explain the purpose of the analysis and provide a brief overview of the dataset you selected.

Dataset Description

[DELETE BEFORE SUBMITTING]

Write one or two paragraphs describing your dataset and explaining why you selected it.

Include:

- Who or what the data was collected for
- The purpose of the data collection
- The unit of observation (what each row represents)
- The total number of observations in the dataset
- Any observations that have been removed (or will be removed) and why
- The key variables relevant to your analysis

Variable Documentation

[DELETE BEFORE SUBMITTING]

Replace the example table below with information about your dataset.

Variable Name	Data Type	Description
example_var	Numeric	Example description

Research Question 1

Question

[DELETE BEFORE SUBMITTING]

Write a research question that investigates a relationship between two or more variables.

Variables

[DELETE BEFORE SUBMITTING]

List the variables that will be used to answer this question.

Variable Name	Role in Analysis

Planned Analysis (Milestone 3 Only)

[DELETE BEFORE SUBMITTING THE FINAL PROJECT]

Describe how you plan to answer this question.

Include:

- The variables that will be used
- The relationships or comparisons you plan to investigate
- The visualizations you plan to create
- How the analysis will help answer the question

Code

[KEEP UNTIL MILESTONE 4]

This section intentionally left blank until Milestone 4.

Visualization

[KEEP UNTIL MILESTONE 4]

This section intentionally left blank until Milestone 4.

Discussion

[KEEP UNTIL MILESTONE 4]

This section intentionally left blank until Milestone 4.

Research Question 2

Question

[DELETE BEFORE SUBMITTING]

Write a research question that investigates a relationship between two or more variables.

Variables

[DELETE BEFORE SUBMITTING]

List the variables that will be used to answer this question.

Variable Name	Role in Analysis
---------------	------------------

Planned Analysis (Milestone 3 Only)

[DELETE BEFORE SUBMITTING THE FINAL PROJECT]

Follow the same structure used for Research Question 1.

Code

[KEEP UNTIL MILESTONE 4]

This section intentionally left blank until Milestone 4.

Visualization

[KEEP UNTIL MILESTONE 4]

This section intentionally left blank until Milestone 4.

Discussion

[KEEP UNTIL MILESTONE 4]

This section intentionally left blank until Milestone 4.

Research Question 3

Question

[DELETE BEFORE SUBMITTING]

Write a research question that investigates a relationship between two or more variables.

Variables

[DELETE BEFORE SUBMITTING]

List the variables that will be used to answer this question.

Variable Name	Role in Analysis
---------------	------------------

Planned Analysis (Milestone 3 Only)

[DELETE BEFORE SUBMITTING THE FINAL PROJECT]

Follow the same structure used for Research Question 1.

Code

[KEEP UNTIL MILESTONE 4]

This section intentionally left blank until Milestone 4.

Visualization

[KEEP UNTIL MILESTONE 4]

This section intentionally left blank until Milestone 4.

Discussion

[KEEP UNTIL MILESTONE 4]

This section intentionally left blank until Milestone 4.
